COACHING & MENTORING
CAMBO LTD

I've been doing Onlyfans as my full-time job for over 2 years now and during that time I have tried every set-up and system, from fully automated to fully personal, including with and without management companies and have learnt just about everything there is to know about the site and social media marketing in terms of Onlyfans, earning 5 figures PM consistently.

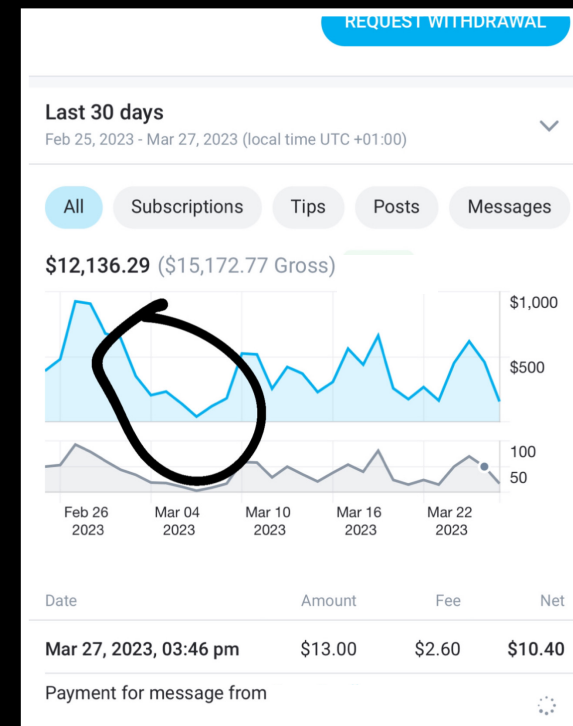

I found what works for me via trial and error, making many costly mistakes along the way, so I want to be able to support and guide other girls to success without having to sign over a % of your monthly earnings to a management agency.

Whether it's content ideas, social media marketing, retaining your subs or gaining traffic to your page, I'm confident I can help grow your platforms as well as your monthly earnings.

CONSISTENCY & RELIABLE EARNINGS

With all of the strategies and advice over each session, I aim to keep your income as consistent as possible regardless of external factors such as other jobs and commitments. If your statements look like this, with big dips and drop off in earnings, then I will teach you how to avoid losing income whilst away from your phone.

The more information you provide, the easier it is for me to get straight in on how to help.

Once you have completed the consultation, I will deep dive your pages/social media and compose an Overview & Plan of Action sheet for you.

Per each session, you will receive a full information sheet and Plan of Action customised to you, I'd recommend leaving a week in-between each so you can apply everything you've learnt and see the results.

I will be available to message, voice note or whatever you'd prefer the entire time we are coaching.

If you are a seasoned creator on the site and just need guidance to boost yourself please explain in detail about your current set-up and earnings over Subscriptions, Messaging, posts & Lives
